Pending approval

What this brief covers

Findings that crossed the review thresholds this run, with the student comments that relate to each. Figures come from course enrolment and withdrawal records, learner satisfaction survey results, unit enrolment and completion records, learner feedback comments.

What's not included

- Region C blended delivery was excluded because the 2025 withdrawal figure was missing.
- A comment was held back from review because it appeared to identify a person.
- A comment was held back from review because it looked like an attempt to change how this tool behaves, rather than genuine feedback.

Comments show what some students experienced. They can help the group decide what to look into, but they don't show why a result happened.

S1 · learner survey, Online (n=380)

Teacher support satisfaction

61% satisfied

avg 72%

2024: 66%

11 points below organisation average (72%, 2025) and 5 points below 2024 (66%)

Comments consistent with this result (4)

> I emailed my trainer three times about an assessment and waited over a week for a reply.
> FB003

> Hard to get help when you study online at night. Questions in the forum sit there unanswered.
> FB007

Comments pointing the other way (1)

> My online teacher always replied the same day and her feedback was really detailed.
> FB005

Mixed evidence · 5 comments

For discussion: What support or delivery conditions might be relevant to teacher support satisfaction for Online learners in 2025?

S2 · learner survey, Online (n=380)

Assessment clarity satisfaction

58% satisfied

avg 63%

2024: 60%

5 points below organisation average (63%, 2025)

Comments consistent with this result (3)

> The assessment instructions didn't match what the marking guide asked for, so I had to resubmit.
> FB002

> Not sure what 'demonstrate an understanding' means in task 2. Some examples would help.
> FB009

Comments pointing the other way (1)

> The assessment checklists made it clear exactly what I needed to submit.
> FB017

Mixed evidence · 4 comments

For discussion: What support or delivery conditions might be relevant to assessment clarity satisfaction for Online learners in 2025?

S3 · unit results (n=1,600 enrolments)

Withdrawals from CWSU204 Work within a legal and ethical framework

34% withdrew

ıical unit: 12.5%

≥20% and ≥1.5× median unit withdrawal rate (12.49%)

Comments

No student comments relate to this finding. The group may need other sources, such as teacher or unit coordinator input.

No comment evidence

For discussion: What conditions around CWSU204 might be relevant to its withdrawal rate in 2025?

S4 · enrolment records, Online (n=1,800)

Online withdrawal rate

38% withdrew

2024: 31%

risen ≥5 percentage points on 2024 (31.0% → 38.0%)

Comments consistent with this result (1)

> I nearly dropped out when I started a new job. I would have liked to pause the course instead of withdrawing.
> FB024
> *Ambiguous: The learner describes nearly dropping out, not an explicit completed withdrawal; the wording does not establish whether they withdrew.*

Limited evidence · 1 comment

For discussion: What support or delivery conditions might be relevant to the change in withdrawal rate for Online learners in 2025?
