Course performance workshop brief

CWS30125 Certificate III in Community Wellbeing Support

2025 results compared with 2024, data to 31 December 2025

Approved for the workshop by
Farley
24 September 2026

What this brief covers

Four results that crossed the review thresholds, with the student comments that relate to each. Figures come from enrolment records, unit results and the 2025 learner survey.

What's not included

- Region C (blended) withdrawals: the 2025 figure is missing and has not been estimated.
- Two comments held back for review: one names a staff member, one contained text that was not feedback.

Comments show what some students experienced. They can help the group decide what to look into, but they don't show why a result happened.

S1 · learner survey, online (n=380)

Teacher support satisfaction

61% satisfied

avg 72%

2024: 66%

11 points below the organisation average, 5 below last year

Comments consistent with this result (4)

> I emailed my trainer three times about an assessment and waited over a week for a reply.
> FB003

> Hard to get help when you study online at night. Questions in the forum sit there unanswered.
> FB007

Comments pointing the other way (2)

> My online teacher always replied the same day and her feedback was really detailed.
> FB005

> The Tuesday night drop-in sessions were a lifesaver.
> FB019

Mixed evidence · 6 comments

For discussion: What support or delivery conditions might be relevant to teacher support for online learners?

S2 · learner survey, online (n=380)

Assessment clarity satisfaction

58% satisfied

avg 63%

2024: 60%

5 points below the organisation average

Comments consistent with this result (3)

> The assessment instructions didn't match what the marking guide asked for, so I had to resubmit.
> FB002

> Not sure what 'demonstrate an understanding' means in task 2. Some examples would help.
> FB009

Comments pointing the other way (1)

> The assessment checklists made it clear exactly what I needed to submit.
> FB017

Mixed evidence · 4 comments

For discussion: What support or delivery conditions might be relevant to assessment clarity for online learners?

S3 · unit results (n=1,600 enrolments)

Withdrawals from CWSU204 Work within a legal and ethical framework

34% withdrew

typical unit: 12.5%

Almost three times the typical unit in this course

Comments

No student comments relate to this unit. The group may need other sources, such as teacher or unit coordinator input.

No comment evidence

For discussion: What conditions around CWSU204 might be relevant to its withdrawal rate?

S4 · enrolment records, online (n=1,800)

Online withdrawal rate

38% withdrew

2024: 31%

Up 7 percentage points on last year

Comments consistent with this result (1)

> I nearly dropped out when I started a new job. I would have liked to pause the course instead of withdrawing.
> FB024

Limited evidence · 1 comment

For discussion: What support or delivery conditions might be relevant to the change in online withdrawals?
